Version:

Problem Statment
What's the problem and why does it matter?

System of Interest
What's the system exhibiting the problem?
Are there other possible SOI? Why this one?

Environment
What is the environment of the SOI?

Social Context
Who owns the inquiry?
How will they know you've succeeded?
Who benefits? Who pays? Who provides? Who loses?

Structure
What are the elements?
What are their relationships?

Behavior
What's the behavior pattern?
How is behavior observed?
What are possible implicit goals of behavior?

Unknowns
What are the known unknowns?

Change Plan
How will the problem be addressed?
How will you know you've succeeded in improving things?
What is the expected result of the change plan? By when?
